# Planning Constraints & Triggers Report

Lot/Plan: 2//DP227508

Council: (NSW)

Development type: Dwelling house

Report date: 2026-10-12

Data currency: currency field not returned; fetched 2026-10-12; source currency 2012-06-29; fetched 2026-10-12; source currency 2022-03-01; fetched 2026-10-12; source currency 2022-10-21; fetched 2026-10-12; source currency 2024-12-13; fetched 2026-10-12; source currency 2026-10-03; fetched 2026-10-12; The NSW BFPL Map is collated and merged together from individual NSW local council maps which are submitted by the local council for certification. The maps are often a product of or derived from local and state vegetation mapping with input from Local Council and RFS staff. In some cases the maps are produced under contract for local council by various companies. Please refer to the individual metadata statements for each LGA BFPL Map. (text from ePlanning/Planning_Portal_Hazard layer 229, same dataset)

This report is informational only. It is NOT a planning certificate (NSW s10.7 certificate) or a council property/planning report. Verify all matters with the council and the relevant authority. Mapping data may be out of date, incomplete or inaccurate. 'Not checked' means the layer could not be queried; it does not mean clear.

# Summary of layers

| Layer | Status | Overlap m2 | % of lot | Footprint | Currency |
|---|---|---|---|---|---|
| Flood planning area / flood hazard | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Bushfire prone land (vegetation category and buffer) | Affected | 0.0 | 0.0 | - | source currency 2026-10-03; fetched 2026-1 |
| Heritage item | Not affected | 0.0 | 0.0 | - | source currency 2012-06-29; fetched 2026-1 |
| Heritage conservation area | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Acid sulfate soils class | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Biodiversity values map | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Coastal management area / coastal wetlands | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Riparian land / water | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Land reservation acquisition | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Airport noise (ANEF) / obstacle limitation | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Mine subsidence district | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Contaminated / potentially contaminated land | Not checked | 0.0 | 0.0 | - | no endpoint configured |
| Transport corridors (road/rail) | Not checked | 0.0 | 0.0 | - | no endpoint configured |
| SEPP-mapped areas | Affected | 955.8 | 100.0 | - | source currency 2022-03-01; fetched 2026-1 |
| Urban release area | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Minimum lot size map | Affected | 955.8 | 100.0 | - | source currency 2024-12-13; fetched 2026-1 |
| Height of buildings map | Not affected | 0.0 | 0.0 | - | currency field not returned; fetched 2026-10- |
| Floor space ratio map | Affected | 949.2 | 99.3 | - | source currency 2022-10-21; fetched 2026-1 |

# Map: Bushfire prone land (vegetation category and buffer)

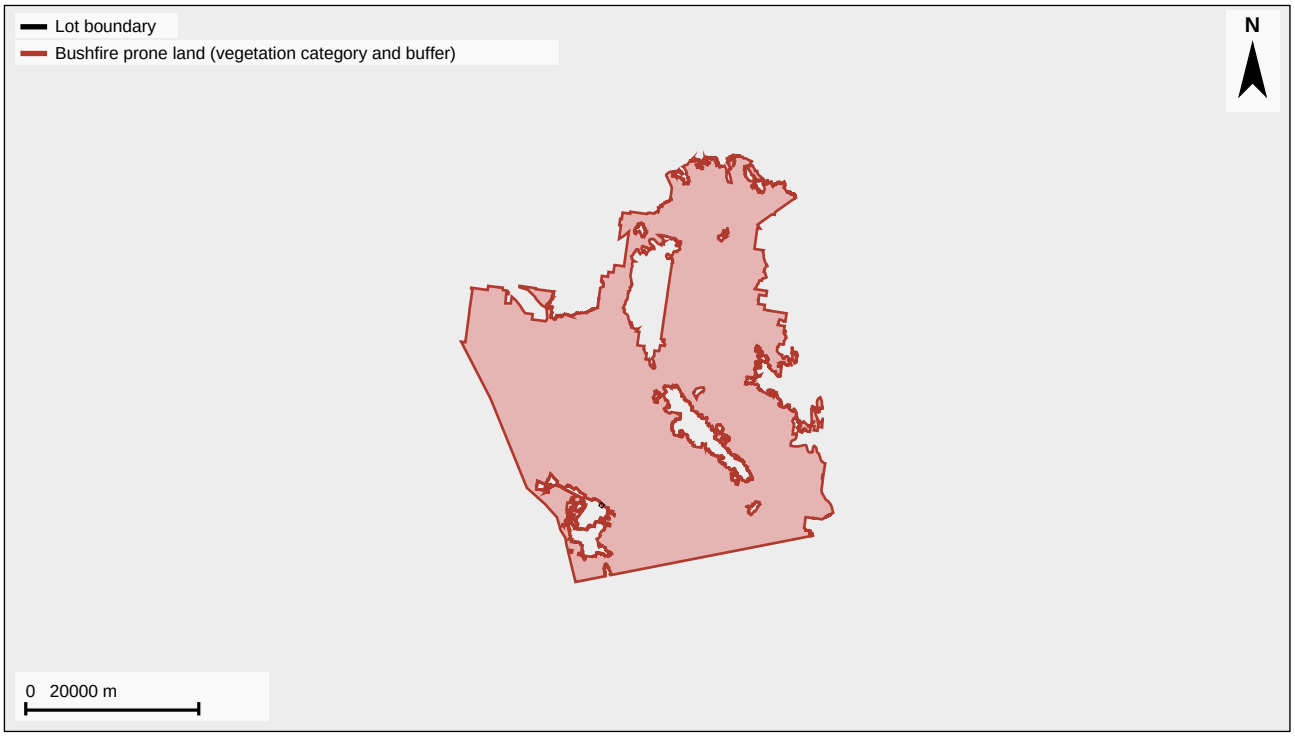

**Figure 1. Bushfire prone land (vegetation category and buffer): constraint overlay on lot (MGA, indicative)**
No aerial imagery available. Vector overlays only.

Overlap 0.0 m2 (0.0% of lot); nearest distance 53.85 m.

## Map: SEPP-mapped areas

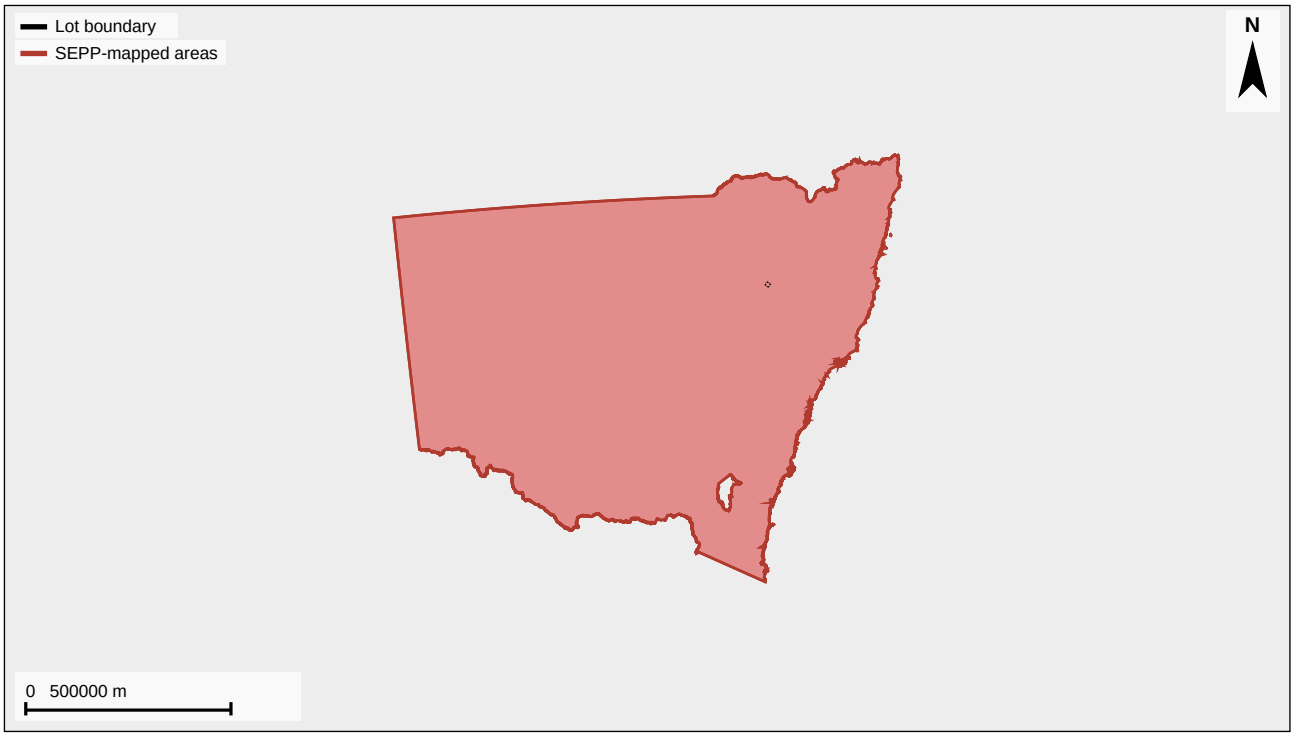

**Figure 2. SEPP-mapped areas: constraint overlay on lot (MGA, indicative)**
No aerial imagery available. Vector overlays only.

Overlap 955.8 m2 (100.0% of lot); nearest distance 0.0 m.

# Triggers and next steps

## Bushfire prone land (habitable building) - Bushfire prone land (vegetation category and buffer)

Rule: bushfire.habitable. Source: to be cited from Planning for Bushfire Protection / AS 3959 / NCC.

Attributes: [{'Category': 3, 'd_Category': 'Vegetation Category 3'}, {'Category': 0, 'd_Category': 'Vegetation Buffer'}]

Pathway (may apply: verify with council): may apply: BAL construction requirements for a habitable building; verify with council / certifier

- bal_assessment_as3959: TO BE CONFIRMED. Obtain the s10.7 planning certificate (EP&A Act) for the lot and confirm with the council.

- pbp_compliance: TO BE CONFIRMED. Obtain the s10.7 planning certificate (EP&A Act) for the lot and confirm with the council.

- spp_bushfire_hazard: TO BE CONFIRMED. Obtain the s10.7 planning certificate (EP&A Act) for the lot and confirm with the council.

- asset_protection_zone: TO BE CONFIRMED. Obtain the s10.7 planning certificate (EP&A Act) for the lot and confirm with the council.

- rfs_referral: TO BE CONFIRMED. Obtain the s10.7 planning certificate (EP&A Act) for the lot and confirm with the council.

Next steps: Commission a BAL assessment (AS 3959) by an accredited practitioner; NSW: check Planning for Bushfire Protection (habitable buildings); Obtain the s10.7 planning certificate (EP&A Act) for the lot and confirm with the council.

## Mapped constraint - SEPP-mapped areas

Rule: generic. Source: to be cited.

Attributes: [{'EPI_NAME': 'State Environmental Planning Policy (Resilience and Hazards) 2021', 'LAY_CLASS': 'Land Application'}, {'EPI_NAME': 'State Environmental Planning Policy (Resilience and Hazards) 2021', 'LAY_CLASS': 'Land Application'}]

Pathway (may apply: verify with council): may apply: verify with council

Next steps: Obtain the authoritative statement of what this layer triggers; Obtain the s10.7 planning certificate (EP&A Act) for the lot and confirm with the council.

## Mapped constraint - Minimum lot size map

Rule: generic. Source: to be cited.

Attributes: [{'EPI_NAME': 'Gunnedah Local Environmental Plan 2012', 'LAY_CLASS': '650-674', 'LOT_SIZE': 650.0, 'UNITS': 'm²'}, {'EPI_NAME': 'Gunnedah Local Environmental Plan 2012', 'LAY_CLASS': '200-399.9', 'LOT_SIZE': 200.0, 'UNITS': 'ha'}]

Pathway (may apply: verify with council): may apply: verify with council

Next steps: Obtain the authoritative statement of what this layer triggers; Obtain the s10.7 planning certificate (EP&A Act) for the lot and confirm with the council.

## Mapped constraint - Floor space ratio map

Rule: generic. Source: to be cited.

Attributes: [{'EPI_NAME': 'Gunnedah Local Environmental Plan 2012', 'LAY_CLASS': '0.5-0.54', 'FSR': 0.5}]

Pathway (may apply: verify with council): may apply: verify with council

Next steps: Obtain the authoritative statement of what this layer triggers; Obtain the s10.7 planning certificate (EP&A Act) for the lot and confirm with the council.
